

***Anascirtothrips arorai* Bhatti (Thysanoptera: Thripidae):
A New Thrips for Israel**

Richard zur Strassen¹ and Wolf Kuslitzky^{*,2}

Anascirtothrips arorai was discovered for the first time in the Palearctic region and in new niches: inside fig fruits and in the galls of *Gynaikothrips ficorum*.

KEY WORDS: *Anascirtothrips arorai*; Israel; pest; *Ficus*; figs.
